Stile®
Unmatched Quality Tiles

Stile is The Only **Certified Brand**
Of Real PorcelainTiles In Pakistan.

CEO MESSAGE

Shabbir Tiles & Ceramics Limited (STCL) is a group company of 'House of Habib' which was founded in 1978. The company produces and markets a wide range of Porcelain and Ceramic tiles in various sizes, colors, and designs to meet its customers' requirements. All our products conform to highest quality standards of durability and aesthetic values.
The company also successfully diversified into some allied building material products.

The two state of the art manufacturing plants (in Karachi) imported from Italy employ the latest technology that matches European standards. Our distribution network is spreaded all across Pakistan through dealerships and emporiums to serve our Stile customer extensively.

With growing competition and expectations of our stakeholders, we continuously strive to improve our business operations, and are determined to promote economic growth and sustainable development of Pakistan.

At STCL, we are committed to provide professional services in a responsive and high-quality manner. Our culture of ethics and integrity has been constant throughout that transformation. From the beginning, we have defined who we are as a company and how we as associates treat each other, our suppliers and our customers. Our commitment to highest values of transparency and integrity has formed STCL's governance structure and processes, which are aligned to the industry's best practices.

Looking ahead, we are focused on accelerating the execution of our growth strategy while continuing to build on the strength of our brand by innovation and bringing positive change to the communities in which we work and live. I am incredibly excited about this journey and truly believe that the best of Ceramic Business is yet to come.

Masood Jaffery
Chief Executive Officer

OUR COMPANY

Shabbir Tiles & Ceramics Limited (STCL) is the pioneer and first private sector enterprise in the ceramic industry in Pakistan. It was founded by the House of Habib in 1978 through strategic and technical collaboration with Agrob Anlagenbau GmbH of Germany.

The Company Brand 'Stile' enjoys leading position in the Ceramic and Porcelain Tiles industry in Pakistan as product range is unprecedented in terms of diversity. Stile offers wide range of sizes, colors, and designs in Porcelain and Ceramic tiles, conforming to high quality standards of durability and aesthetic values. The company has successfully diversified into some allied 'Building Materials' (Epoxy Coating, Water Proofing etc.) and has achieved considerable success in manufacturing and marketing 'DIY Installation Materials' ensuring seamless installation of tiles.

Our products are distributed through the largest nationwide dealership network comprising over 300 dealers operating in more than 35 cities of Pakistan. Through this, our company has successfully distinguished itself in the face of stiff competition.

Our offices located at Karachi, Lahore, Multan, Faisalabad, Islamabad, Peshawar, Hyderabad and Sukkur always ensure the best of their services to the valued customer. Moreover, to provide complete range, display and highest level of customer services to Stile customers under one roof, the company has opened company operated retail outlets all over Pakistan named 'THE STILE EMPORIUM & DESIGN STUDIO.

Manufacturing Facilities

The Stile plants, based in Karachi incorporate the latest European technologies & techniques to manufacture high class products conforming to European standards.

The Company is manufacturing Digital Inkjet, Porcelain and Ceramic tiles of international quality in different sizes and colors, employing the latest technology and state-of-the-art machinery imported from Italy and other European countries.

From a humble capacity of 600,000/- sq meters per annum, the company is producing over 12 million sq meters of tiles.

QUALITY STANDARDS

The implementation of strict quality control procedures is crucial for any business.The company ensures that all of its tiles adhere to international quality standards. Our tiles are manufactured as per EN177 and EN159 test standards. We are also ISO 9001: 2015 and ISO:13006 certified.

ISO 9001:2015

Is a quality management systems, and global standard for providing assurance about the ability to satisfy quality requirements and to enhance customer satisfaction in supplier customer relationships.

- Certificate of Appreciation for promotion of Apprenticeship Training Services by Directorate of Manpower and Training in 2002.
- KSE awarded Trophy and Shield for Top 25 Companies in Pakistan in recognition of its performance in 1996.
- Certificate of Corporate Excellence from the Management Association of Pakistan in 1997 and 1998.
- The Company is amongst the top 25 Companies of Pakistan awarded Trophy and Shield by Karachi Stock Exchange in recognition of its performance.

CERTIFIED BY CENTRO CERAMICO

The Only Brand In Pakistan That Has Been Certified ISO Quality Standards By Centro Ceramico.

Centro Ceramico is a Research and Experimentation Center for the Ceramics Industry in Bologna, Italy working since 1976. It has a reputation of being the authority in ceramic and raw material testing and the results are accepted throughout the world.

ISO and EN certification directly benefits the consumer by enforcing manufacturers to follow certain internationally designed standards for ensuring the high quality products.

STILE EMPORIUM & DESIGN STUDIO

To cater to their high-end customers, such as architects, home owners, builders, businessmen, site engineers etc, we opened 7 company operated outlets called "THE STILE EMPORIUM & Design Studio" in 5 major cities of Pakistan i.e. Karachi, Hyderabad, Lahore, Faisalabad and Rawalpindi.

Objective of these emporiums is to create an experience which is a direct reflection of the brand Stile. Showing different suggestions and uses for product rather than simply displaying the product itself, which makes a mere tile look classy, elegant and chic.

- Complete product range display
- Friendly & helpful customer services.
- Free designing consultation by in-house interior designers.
- Free delivery of every order.
- Proficient customer complain handling.
- Opens 6 days a week (11 am to 08 pm).

EXPORT

We take this liberty to introduce our company as one of the leading exporters of international standard high quality Ceramic, Porcelain Tiles and Installation materials.

The range of our products line, good quality and competitive prices have made us one of the fastest exporting companies in the industry.

We commenced our exports nearly 12 years ago and have exported to Spain, Netherlands, KSA, U.A.E. Oman, Qatar, Yemen, Sudan, Mozambique, Madagascar, Somalia, Nigeria, Srilanka, Tajikistan, Afghanistan. We have exported millions of m^2 Ceramics and Porcelain tiles as well as large quantity of building materials. We are proud to be one of the top 500 Global and Pakistan's largest ISO certified manufacturer of international standard Ceramic and Porcelain Tiles.

Our Export Sales Channels are:

- Agents and Distributors
- Dealerships
- Projects

Stile offers guaranteed competitive prices and most reliable products and services. We are confident to offer very short lead times on all products.

PRODUCT PROFILE

STILE CERAMIC TILES

Properly laid Stile ceramic tiles will neither deform nor break in extreme temperature conditions. To keep ceramic tile surfaces clean, all you need to do is sweep, vacuum and wash them regularly with water. Ceramic tile materials are highly resistant to chemical agents. Direct exposure of ceramic tiles to sunlight neither alters their color nor causes them to fade. Being hygienic and easy to clean, ceramic tiles are recommended for all areas where high sanitary standards are a must.

Whether it is public or residential, indoors or outdoors, Stile ceramic tile can be counted on to perform with exceptional durability and unique visual appeal. After examining this select list of advantages, the next step is choosing the most suitable ceramic tile for the area you wish to beautify.

Ceramic Wall Tiles, ISO 13006 Group BIII - Double Firing

		TECHNICAL CHARACTERISTICS	TEST STANDARD	PERMISSIBLE TOLERANCE AS PER ISO NORMS	STILE VALUE

12		Resistance to house hold chemical	ISO 10545-13	Min. Class-B	Class-A
13		Resistance to staining	ISO 10545-14	Min Class-3	Class-5

Slight variation in size and shade is inherent in the manufacture of ceramics tiles.
It is recommended that several cartons to be opened and their contents checked and assembled to an ideal color combination
Please inspect all tiles prior to installation, company will not entertain complaints, once tile are laid/fixed.

STILE PORCELAIN TILES

Stile Porcelain is a very hard-wearing material which is highly resistant to abrasion and much less likely to chip or crack if a heavy object is dropped on the floor compared to ceramic. Stile Porcelain tiles are made of glazed porcelain which has the added benefit of being easier to clean than unglazed or textured porcelain stoneware tiles. Porcelain tiles are much more similar in appearance to natural stone than ceramic tiles. Indeed, the latest stone effect tiles are almost identical to real stone.

Due to the very high density of the tiles and the low water absorption, porcelain stoneware tiles are resistant to frost and can therefore be used outside.

TECHNICAL SPECS SHEET

APPLICATION OF TILES ACCORDING TO ABRASION CLASS

ABRASION STAGE (Failure visible at revolutions)	CLASS		LAYING APPLICATION ACCORDING TO CLASS
100	0	Not recommended for use on Floor	-
150	I	For Soft Soled Footwear	Residential bedrooms without direct access from outside
600	II	For Normal Footwear with small amount of scratching dirt	Rooms in living areas and homes
750, 1500	III	For Normal Footwear, are walked more than Class 2 with small amount of scratching dirt	Residential kitchen, halls, balconies, loggias & terraces
2100, 6000, 12000	IV	For Regular Traffic with some scratching dirt i.e. more severe than Class III	Entrance, commercial kitchen, hotel exhibition & sales room
12000 &v pass ISO 10545-14 for stain resistance	V	For Severe Pedestrian Traffic over stained period so the condition is more severe than class IV	Public areas such as shopping centers, airport, public walkway & industries

MODISH COLLECTION

Has a wide range of contemporary designs ranging from light textures to dark textures to choose from. We are the only brand in Pakistan, offering real porcelain tiles with less than 0.5% water absorption.

Characteristics:

- Wide range of contemporary designs and colors.
- Less than 0.5% water absorption resulting in stain resistance and durability.
- Full Body Porcelain Tiles.
- Manufactured under strict standards to maximize strength and durability.
- Stain resistant due to Glass-coat layer on the surface.
- Water resistant and easy to clean.
- Durable for decades.

Available Finishes:

Glazed Polish Porcelain:
Layer of glass-coat is applied on the surface of the porcelain body and then it is polished with a layer of liquid silica through Teflon boots to make it extra shiny and Stain free. Mostly used on Floor Tiles.

Glazed Matt Porcelain:
A thick layer of Matt glass-coat is applied on the surface of the porcelain body to make it suitable for areas where slip resistance is required. These can be used on both Wall and Floor.

SIGNATURE COLLECTION

For the first Time in Pakistan, Stile has introduced Metallic, Granilia and Anti-slip Matt Tiles.

Signature Collection is a set of Premium Surface Finish Tiles, Stile has launched for its customers. These are the dual purpose porcelain tiles which can be used both on Wall & Floor. With some design detailing you can uplift the aesthetic value of your Homes.

Characteristics:

- Harder & Rough as compared to ordinary porcelain matt tile.
- Higher slip resistance in wet and dry conditions as compared to any other tile.
- Chemical and Stain resistant due to extra thick glass coating.
- High grip and durability.
- Low maintenance.
- Scratch resistant.

Available Finishes:

Metallic Finish:

It is a special type of surface glaze which on application gives a multi-color and high shine effect.

Granilia Finish:

Special High abrasive glaze/glass grains are used to sprinkle on the surface of the glazed tile which give it a shiny, crystalline effect and slip resistant surface.

Anti-Slip Finish:

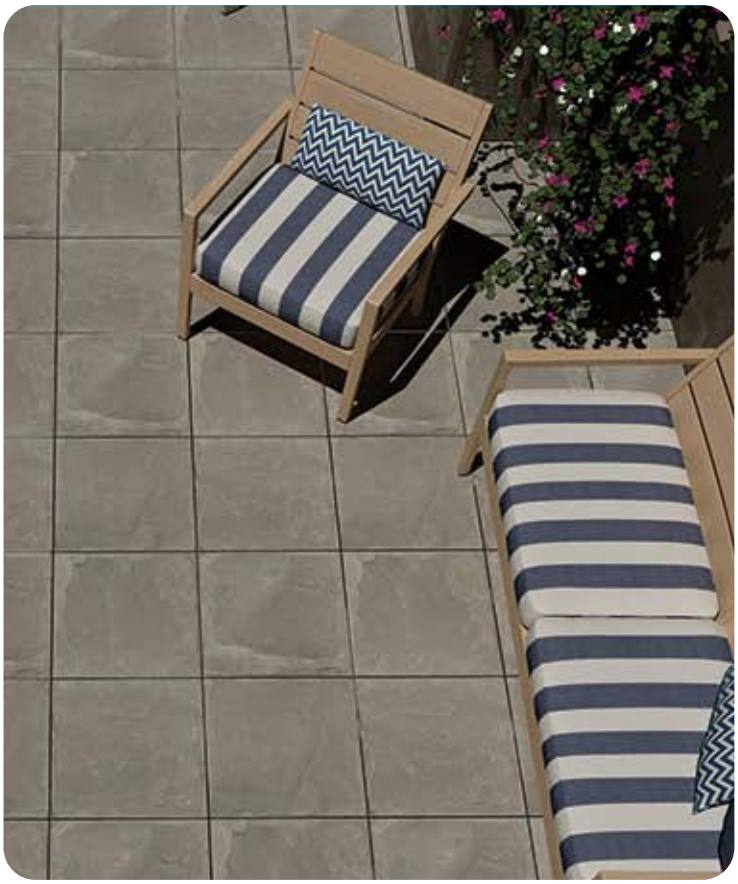
Double layer of Glazed Matt is applied on the surface of the tile to make it high slip resistant and durable for high traffic areas specially. A perfect choice of Tile for Wall and Floor both.

STILE VITRIFIED FLOOR TILES | vft®

Wide range of Tiles for outdoor use

Stile Vitrified tiles have some unique features which make them very popular among the homeowners. They are easy to maintain compared to other types of tiles. When choosing vitrified tiles, naturally one gives priority to the colour, size and look.

However, attention should also be paid to the technical properties like their durability and water-resistance, etc. Vitrified floor tiles also resist scratches and discolouration.



BUILDING MATERIALS

Stile always focuses to enhance their customers' life style by introducing new and innovative products. We have launched a complete range of construction chemicals including epoxy flooring, floor coatings, car parking flooring, floor hardeners, water proofing, concrete admixtures, concrete repairs, joint sealants, curing compounds, bonding agents, etc.

Concrete Repairing Systems:

- Epoxy Repair Mortars
- Cementitious Repair Mortars
- Concrete Bonding Agent

Industrial Flooring & Floor Coatings :

- Epoxy Floor & wall Coatings
- Trowel Finish Industrial Floorings
- Heavy Duty Floor Screed

Protective Coatings:

- Resistant Floor & Wall Coatings
- Water Tanks Protective Coatings
- Water Repellent Coatings

Water Proofing:

- Rooftop Water Proofing
- Cementitious Water Proofing
- Water Repellent Coatings

INSTALLATION MATERIALS

Stile Bond

Stile Bond is a high performance cementitious powder to be mixed with water or Latex 73 to install ceramic tile and natural stone, using the thin-set method of installation. Latex 73 is specially designed for use with Stile Bond for high strength, which is frost, chemical and shock-resistant. It is designed for interior and exterior installation of ceramic tiles and natural stone for walls and floors.

Unsanded Grout

Unsanded Grout is a blend of portland cement, chemical additives, and color-fast pigments. It is designed for wall and floor tiles with the joint of 1-3 mm. Grout Admix is especially made to enhance the efficiency and durability of unsanded grout. It is used in place of water to improve the performance of grout. Unsanded Grouts are available in different shades.

Latex 73

Latex 73 is specially designed for use with Stile Bond for high strength, which is frost, chemical and shock-resistant. It is designed for interior and exterior installation of ceramic files and natural stone for walls and floors.

Grout Admix

Grout Admix is specially formulated to enhance the efficiency and durability of unsanded grout. Add Grout Admix to dry grout in place of water to improve the physical properties of the grout.
