Benefits Of Using Stile Bookmatch Collection

These tiles are renowned to be Pakistan's Only Real Full Body Porcelain tile*. As it has less than 0.5% water absorption, this improves strength and durability.

Firing at higher temperatures and using more refined clay creates denser porcelain tiles, which if installed correctly ensure durability for decades.

Owing to the non-porous nature of this tile, they are resistant to stains and fading.

Having low water propensity, these tiles are easy to maintain.

It is resistant to household chemicals thus it maintains its color, design and surface finish for a longer time.

The installation of these tiles is ideal, easy and hassle-free.

Glazed Polish Porcelain:

A layer of glass-coat is applied on the surface of the porcelain body and then it's polished with a layer of liquid silica through Teflon boots to make it extra shiny and stain free. Can be used on both Wall and Floor.
